Each agency is encouraged to select a designated medical provider (DMP) to ensure the best medical treatment and opportunity for early return to work. It is recommended that the agency select one DMP. This makes it easier to establish a good working relationship with that DMP. However, a state agency may choose more than one DMP.

State Agency Responsibilities

- Inform your employees of your agency's DMP selection. Employees must sign a form acknowledging receipt of this information and return that form to the employer. An Electronic copy of this form is acceptable.
- Display the DMP selection in a place where employees can easily see it.
- Inform Risk Management Workers Compensation Program of the designated medical provider selected. A copy of your employee notification form is sufficient. You will no longer need to provide Risk Management with a list of employees who have selected their own medical provider for work related injuries. However, you will need to keep this documentation for your own record.
- Inform your employees of their option to add additional medical providers to your selection of designated medical providers. To be discounted the \$250.00 deductible, employees must seek treatment at one of the State's DMP's. **As of May 1, 2007 employers will no longer be charged the \$250.00 deductible if treatment is received at Dakota Clinic and St. Alexius Medical Center as well as their satellite clinics. Any treatment prior to May 1, 2007 at these medical facilities will be assessed up to \$250.00.**
- Injured workers are required to be treated by the agency's designated medical provider UNLESS they have previously informed their employer of a different provider BEFORE an injury occurred. If the employee did not seek treated from your designated medical provider, or the one chosen before being injured, it may result in nonpayment of benefits. Notify WSI if an employee did not seek treatment with the DMP or selected a different provider. Notification can be indicated on the First Report of Injury Form. If they were not treated by the DMP, it is recommended that the claim be protested and the reason given for the protest be that *the employee did not seek medical treatment with the DMP or opt to see a different medical provider*. A copy of the employee's DMP notification form needs to be faxed or mailed to WSI as soon as possible.
- Remember, the DMP law does not apply to emergency care or care the injured worker did not know was related to their injury.
- Annual training on the DMP selection process is recommended. Risk Management has developed a brochure to assist in you training. <http://www.nd.gov/risk/workers-comp/DMP%20Brochure.pub%20revised.pdf>

If you have any questions or concerns regarding the Designated Medical Provider program, contact Diane Waliser at 701-328-7583 or via email at drwaliser@nd.gov.
